

## **REPORT ON P.A. 11-242 REGARDING UNIFORM LICENSING AND DEEMED STATUS**

I recently submitted a report required under P.A. 11-242 sec. 55, which is described below. The report is available as a PDF: [Report on P.A. 11-242](#)

P.A. 11-242 AN ACT CONCERNING VARIOUS REVISIONS TO PUBLIC HEALTH RELATED STATUTES sec. 55 requires the Nonprofit Liaison to the Governor to report “to the joint standing committees of the General Assembly having cognizance of matters relating to public health and human services on the feasibility of (A) establishing a uniform licensing process for community-based providers, and (B) implementing deemed status” and to make any recommendations for legislative action.

Thanks to the diligent efforts of a large team of nonprofit agency representatives and state agency licensing and legal officials, we developed a uniform licensing application and a streamlined electronic posting process, available here: <http://das.ct.gov/fp1.aspx?page=443>

As with all new systems, rollout takes time and there may be “bugs.” I'd welcome your input and ideas of ways that we can improve the licensing system.
